

Wedding Photography

All Saints Church
Grayswood

To the official wedding photographer for

Names

Date

As this wedding is not taking place in a civic or secular building, but during a service of worship in one dedicated to God, we ask that you please adhere to the following:

- You may take any photos you wish outside the church at any time.
- You may take any photos you wish inside the church before the service begins.
- Before the service you may position yourself by the south choir stalls to photograph the wedding party as they walk up the aisle. Please then exit via the Choir Vestry and re-enter via the Main Church Doors to re-position yourself at the back of the church.
- Once the service begins please remain at the back of the church throughout - until the "registration of the marriage".
- You may take photos during the service only during a hymn and without flash (please use a silent shutter)
- Please refrain from taking photos during any other part of the service (except by agreement in writing).
- During the "signing of the registers" you may take both informal and posed shots.
- At the end of the service, you may take any photos you wish of the wedding procession on its way out of church.

If the weather is bad you are welcome to remain inside (or return to) the church to take any photos after the service if you wish.

We appreciate your cooperation in making this a special day for the couple – thank you.

ALL SAINTS CHURCH, GRAYSWOOD
All Saints Church, Grayswood Road, Grayswood, GU27 2DJ
